

PRO Line Data to PDF

Put your ASCII and EBCDIC data on display anywhere

PRO Line Data to PDF converts common line data, like ASCII and EBCDIC, into PDF. This provides a clear migration path for customers looking to establish a link between the data value of legacy mainframe applications and the common platform of PDF.

Platform Independence

PRO Line Data to PDF is available on Linux, AIX, Solaris, HP-UX, z/OS (all versions) and Windows platforms. This means that users can install the software where they need it.

Features and Benefits

- Resource management is automated.
- Conversion throughput and performance are optimized.
- The converted PDF images are faithful representations of the original line data files and are fully searchable.
- The converted images may be optimized for archiving, retrieval and display, using our powerful PRO options
- Conversion improves print workload balancing: a single printer can be used for printing ASCII, EBCDIC and PDF files, eliminating the need for duplicate printing format infrastructure.
- PDF output images provide superb archival flexibility, for example by page, by customer or by transaction.
