Crawford Technologies announces the release of PRO Version 3.3 products

Toronto, 5 February 2008. Crawford Technologies Inc., the leading provider of transactional document reengineering solutions, announced today the release of Version 3.3 of its entire **PRO** family of software products including the core transform and conversion product lines and the document re-engineering, archive, and workflow product lines.

"The Version 3.3 upgrade of our entire product line includes significant new functionality in response to customer requests and changing industry directions," said Ernie Crawford, President, Crawford Technologies Inc. "We are especially excited by the HP GL/2 support and the extended trigger support."

- New functionality in today's Version 3.3 release includes:
- Expanded support for HP/GL 2
- AFP BDC/EDC and Named Group trigger support for more sophisticated document splitting and indexing
- Electronic inserts – the ability to insert overlays, pre-printed text and mailing inserts into electronic files on an individual document basis
- CFF support for PDF files
- Volume-based pricing offering for low volume customers

"These V 3.3 enhancements deliver advanced functionality our customers asked for," said Stephen D. Poe, VP of Product Management for Crawford Technologies Inc. "CrawfordTech continues to enhance its product lines based both on customer requests and to provide innovative solutions to new and emerging issues in the transactional and Transpromo document production environments."

About Crawford Technologies Inc. Crawford Technologies (CrawfordTech) provides the industry's most robust and flexible solutions for print stream conversions, print stream & data mining, document re-engineering, archiving & retrieval, mail processing and output workflow. With our committed and knowledgeable product teams, CrawfordTech offers unparalleled development, design and support. CrawfordTech delivers advanced solutions for the service bureau, financial, insurance, medical, government, utility and telecommunications industries. Many of today's strategic companies in the document solutions business are users of CrawfordTech's PRO Suite of software solutions due to the robust software functionality and world class after sales support provided by CrawfordTech. CrawfordTech is based in Canada, has been in business for 12 years and serves over 400 customers worldwide. Our Toronto and Vancouver development centers produce high-quality, cross-platform products using advanced development and testing techniques.
